

# ABOUT

## JEWISH CARING NETWORK

**Our mission is to bring joy and support to our families, and the knowledge that we are standing beside them throughout the duration of their illnesses, treatment and recovery.**

When serious illness strikes, the entire family is affected. The Jewish Caring Network's programs, activities, and services are designed to help each family member. All of the vital services we provide are free of charge. Each family's situation is individually assessed, enabling us to cater to their specific needs. When families feel overwhelmed and alone, the Jewish Caring Network is an organization comprised of caring, compassionate individuals who are sensitive to the unique needs of each individual they help.
